Attachments: 05-902659.pdf

Hi Diedra,

I don't have anything at my desk but I'm surprised you didn't find anything in SEMS. SEMS doc 917488 is a Special Notice Letter from 2015, which is the first document that comes up when I search for "Special Notice Letter" and set the dates to 2015.

Searching for "General Notice Letter" in the title field and setting the search dates to 2012 brings up 57 documents, the first of which is a GNL to multiple PRPs. SEMS doc 507365 is the redacted version that has Franklin Iron & Metal, Kimberly-Clark, Peerless, Sherwin-Williams, Hobart, Kelsey-Hayes, Reynolds & Reynolds, Ohio Bell, LM Berry, Pepsi, Standard Register, Waste Management and Valley Asphalt, all of which the requestor asked for.

The 3rd thing the requestor asked for are the documents in the attached Administrative Record index. I also found this in SEMS.

I spent 30 minutes on this FOIA.
